

### **Secondary Insurance Non-Acceptance Consent Form**

Charter Oak Endodontics accepts most forms of dental insurance. We will file claims to primary dental insurance providers as a courtesy to you. Some patients also have a secondary dental insurance provider. Charter Oak Endodontics **does not** accept, file, negotiate or otherwise participate in any transaction with a secondary dental insurance provider. As a courtesy, you will be provided with the necessary paperwork to file a dental claim on your own.

In the event the secondary dental insurance company does not honor your claim, Charter Oak Endodontics is not able to assist you in resolving the issue. The reason is your dental insurance contract is between your family and the insurance company.

By signing this form you understand that Charter Oak Endodontics does not participate in secondary dental insurance contracts.
